The background of the entire image is a detailed architectural sketch in black ink on a white background. It depicts a complex interior space with multiple levels, including balconies, staircases, and various structural elements like beams and columns. The drawing is done in a loose, expressive style with many lines and hatching.

...MOST ASKED QUESTIONS

WHITES... cool vs. warm

Cool colors contain more blue/gray

- Absorb warm light, reflecting cool light
- Make room feel crisp
- Cool light makes warm paint look ashy

Warm colors contain more red/yellow

- Great in areas lacking natural sunlight
- Coordinates well with golden oak/warm wood
- Pulls yellow/red from warm paint creating warm atmosphere
- Cool paints will not look crisp in warm lighting

How does artificial Lighting Change Paint Color?

Warm Light Bulbs=Warm Paint

Natural Light Bulbs=Warm or Cool Paints
